**REGIONAL ADVISORY**  
No. 031, s. 2019

### MICRONUTRIENT POWDER SUPPLEMENTATION

**TO: SCHOOLS DIVISION SUPERINTENDENTS**  
This Region

1. The use of Micronutrient Supplementation has been proven to be safe and effective in improving health across life's stages, during normal times, during disasters and emergency, and in treating persons with diagnosed micronutrient deficiency.
2. DOH-Caraga would like to share the Micronutrient Powder commodities to young learners who are receiving food supplementation ~~in~~ so as to widen MNP supplementation to combat the problem on micronutrient deficiency in the region.
3. The Provincial Health Offices, City Health Offices and Rural Health Units are responsible in the conduct of orientation and mentoring in the administration of MNP before the school year ends.
4. For more details, kindly refer to the attached communication.
5. Immediate dissemination of this Advisory is desired.
