January 10, 2020

**RE: ADVOCACY ON SABAYANG PATAK KONTRA POLIO (SPKP)**

The Department of Health has launched the Sabayang Patak Kontra Polio in order to halt the transmission of Poliomyelitis in the country and in the whole island of Mindanao. A synchronized vaccination campaign aims to vaccinate at least 95% of children 0-59 months old. The campaign is done in two rounds. For round 1, 94% of the total target was achieved. For round 2, SPKP is rescheduled on January 20 to February 2, 2020.

In line with this, you are hereby advised to advocate the Free, Safe and Effective vaccination against Polio through the following suggested strategies:

1. Posting of Sabayang Patak Kontra Polio Streamer/Tarpaulin in any conspicuous area in your office;
2. Announcement on the schedule of SPKP during Monday convocation;
3. Disseminating other information materials on SPKP in your office and in every school;
4. Posting of SPKP IEC materials (downloaded at: <https://bit.ly/2Wbvjut>) on your official Facebook and other social media pages.

For concerns or queries, you may contact Mr. Dines K.N. Garcia at 09778522777 or Ms. Psyche Dapar at 09093723810.
