PREPAREDNESS MEASURES FOR TROPICAL DEPRESSION "JOLINA"

Per 24-hour Localized Weather Forecast of PAGASA-DOST for Caraga Region at 5:00AM today, September 6, 2021, Tropical Depression "Jolina" was estimated based on all available data at 310 km East Southeast of Guiuan, Eastern Samar (10.1°N, 128.4°E) with maximum sustained winds of 45 km/h near the center and gustiness of up to 55 km/h. It is moving West Southwestward at 20 km/h.

Division Offices and schools of Dinagat and Siargao will experience rains with gusty winds due to TD JOLINA and possible flash floods or landslides due to scattered light to moderate to at times heavy rains. The rest of Caraga Region will have Cloudy skies with scattered rain showers and thunderstorms and a possibility of flash floods or landslides during severe thunderstorms. Light to Moderate winds coming from Northwest to Southwest will prevail with Slight to Moderate seas.

In this light, all SDOs and schools are reminded once again to conduct pre-emptive preparedness measures to reduce the effects of TD Jolina. Schools are to coordinate with LGU DRRMO for any announcement of updates to include the use of schools as evacuation center (EC) and/or suspension of onsite work for government offices should the weather disturbance be strengthened or intensified in the coming days.

SDOs and schools shall submit reports should there be any damages brought by TD Jolina in the school facilities and/or when classrooms are used as ECs. SDO and school DRRM Committees must be on look-out for any untoward events that may happen in the school facilities and personnel due to this weather situation.

SDO DRRM Coordinators are encouraged to share this advisory to all SDO chat groups and other communication platforms for faster dissemination to schools.
