**2022 INTERNATIONAL STUDENT VIDEO CONTEST BY THE INTERNATIONAL
ATOMIC ENERGY AGENCY (IAEA)**

The International Atomic Energy Agency (IAEA) will hold the International Student Video Contest with the theme, "The Role of Nuclear Technology in Addressing Climate Change" on June 13-16, 2022 in conjunction with the International Conference on Nuclear Knowledge Management and Human Resources Development: Challenges and Opportunities, to be held in Moscow, Russia.

The IAEA invites public and private school learners to participate in the video contest with the following salient points:

- The contest is open to teams composed of up to four (4) students, ages up to 18 years old, with at least 50% female representation.
- Teams are invited to produce a three (3) minute video on the role of nuclear technology in addressing climate change.
- The top five (5) finalists will be presented at the IAEA conference in Moscow and be given certificates and awards.
- The winning team will also get electric bicycles from the Russian State Atomic Energy Corporation (ROSATOM).

Schools Division Offices, through the Program Supervisors/Coordinators in Science are advised to disseminate the information in the attached announcement, guidelines and promotional poster. Additional information can be found on IAEA's dedicated webpage, or through this link: <https://bit.ly/3yxAA2z>.
